

Deliver on the promise
of a quality education

NATIONAL
EQUITY
PROJECT

Every child has the right to a quality education.

At The National Equity Project, we coach people to become the leaders who make good on that promise.

To ensure that every child in America gets the full benefit of a quality education, we need new approaches and new kinds of leadership.

The National Equity Project provides comprehensive services to build culture, conditions, and competencies for excellence and equity in districts, schools, and nonprofit agencies.

OUR IMPACT

- Since 1999, we have coached over 1000 principals and other educators to be leaders for educational equity.
- We coached the creation and subsequent support of over 40 new small schools in Oakland, CA. Oakland Unified has been the most improved major urban district in California for the last six years.
- We have acquired over \$30 million in national and local grants for school and district redesign initiatives.

"I will be a better leader, teacher, and colleague for equity (or otherwise) because of the reflections I was asked to make."
